

Banana Bread

2-3 Cups white flour or 1 cup white with millet flour

3 Ripe bananas

1/2 Cup honey

1T baking soda and baking powder

Some cinnamon

Mix all wet ingredient together. Then add all dry ingredients. You don't want it really runny so if needed to make the texture thicker just add more flour. Bake at 350 degrees for 45-50 minutes or until no more sticks on a toothpick.
